

**House Agreement**  
**Care House Agreement**

**Responsible Committee: FUNCC (Health Team Workgroup)**

*Last reviewed: January, 2015*

We are a community of active adults who share a desire to create an environment that fosters caring and supportive relationships with each other. Our homes are independently owned and the community at large provides no formal health care assistance.

Because we are not an assisted living community, members must be able to live independently and be responsible for their own health care and personal care needs, as required.

Any health care and/or personal care arrangements made between individual members are not the responsibility of the community at large, nor can the community and/or the Homeowners Association be held responsible for these arrangements.

Since one of the goals of PDX Commons is to allow us to “age in place,” we will be a group where friends and neighbors help each other in informal ways when health and life challenges occur.

PDX Commons could allow use of a guest suite for caregivers hired by households in need. However, this is yet to be determined.

I confirm that I have read and understand the PDX Commons Care House Agreement.
