

Smoking and Vaping

Responsible: Building and Grounds Committee

Bylaws Section 4.23:

1.1 Smoking Restriction. The Condominium is a smoke-free property. Smoking of tobacco products, marijuana, incense, clove cigarettes and similar products shall be prohibited in all Units or Common Elements of the Condominium.

House Agreement

Smoking and Vaping

Adopted 6/4/17

Last reviewed 6/27/2018

- PDXC is a smoke-free property.
- Only vaping of cannabis products is allowed at PDX Commons.
- Vaping of cannabis is allowed *only* within private homes and the rooftop. Vaping on the rooftop must meet the following specific conditions:
 - The “Vaper” wanting to vape on the rooftop will seek consent from everyone else on the roof top at that time.
 - The “Vaper” will vape at a respectable distance from others, preferably down wind.

Secretary's note: At the time of adoption, the following note was included when introducing the agreement:

“While PDXC is a smoke-free community, current research is inconclusive as to the effects of second-hand vapor. There is no particulate or residual from vapor.”
